MEMORANDUM FOR: Director of Medical Services
Director of Personnel

SUBJECT

a new format of applicant testing beginning 1 July 1968, please be certain that the arrangement provides sufficient flexibility for our transferring the testing site from campus to non-campus facilities. I mention this because of several recent incidents where we have had to cancel our recruitment interviewing because of student reactions. I anticipate that some of the campuses where we propose to conduct on-campus testing will either at the time we so propose or a little later develop some new challenge which will cause us to cancel some of the on-campus testing sites. I want this to be highly flexible and I wish to avoid confrontation with university authorities or demonstrating students. It could well be that before we are through with this program we will find the greater percentage of our testing is conducted off campus so we might as well consider this at the very beginning.
